

# NEXA™ CHLOR

## Plug-In Natural Chlorine Generator

Nexa Chlor automatically purifies spa and pool water. It uses gentle chemistry levels that help protect blond and dyed hair and keep eyes clear without the chlorine odor. Nexa Chlor works on low mineral levels and installs in minutes.

To further enhance spa water, use our authentic Dead-Sea minerals instead of ordinary salt. Enjoy the intense rejuvenation and nourishment these ancient minerals provide. Soak in the magnesium- and potassium-rich oasis that helps muscle function, nerve cell communication, and cell reconstruction.

Cherish the fusion of modern technology and ancient wisdom, a clear harmony of purity, health and beauty.

- Simply plug into standard GFCI outlet and place cell over the edge of the pool or spa
- Eliminate buying, hauling or handling chlorine chemicals
- Low mineral concentrations - spa: 1500 ppm  
pool: 3000 ppm (also functions with ordinary pool salt at these levels)
- Engineered protection against high and low mineral or temperature levels
- Self-cleaning technology greatly reduces number of manual cleanings by reversing polarity
- Compact cell housing drops directly into cleaning solution
- One (1) Year Limited Warranty
- Earth friendly and energy efficient
